

## PTO for MERCEDES, EATON-E, ZF, VOLVO gearboxes

**012-035-22178**

**010-036-02175**

The pneumatic clutch PTO 01203522178 has been modified in the engagement system group and now it includes the built-in gear, to operate with more reliability even in extreme conditions. New article codes have been now created both for the PTO and the corresponding adaptor (which changes according to the type of gearbox) in order to handle the modification in the best and easiest way.

With the new adaptors the interchangeable gear to be fixed on the PTO won't be provided anymore, but only the fittings to mount the PTO on the gearbox.

The enclosed tabel summarizes the new article codes:
