

Hand pump: new order procedure

Dear Customer,

Herewith we would like to inform you about the new order procedure as well as the innovative price list about our new hand pumps FULCRO that will be valid from the **1st of February 2004**.

The new hand pump FULCRO with cast iron housing for both single and double acting cylinder versions is now the standard version available.

As to oil tanks, the **plastic version** is considered the standard execution while the aluminium one will be available only on demand as optional.

In order to meet different customers' needs now also the lever has to be ordered on demand and it will be no longer supplied as standard.

The attached scheme will help you while choosing the hand pump required configuration.
Our sales department is at your disposal for any further information you may need.

New hand pump type **FULCRO** : (PMS) - (PMI)

- > Nodular cast iron pump housing treated with black coloured cataphoresis coating
- > Plastic oil tank as standard. Aluminium tank available on demand (optional)

Possible configuration	Parts to order
