

# Environmental labelling of packaging

To comply with the EU Directive 2018/851 on waste and the EU Directive 2018/852 (implemented in Italy by Legislative Decree 116/2020) on packaging and packaging waste, OMFB has introduced on all packaging the identifications required in order to recognize the materials used and allow their disposal as required by the laws in force.

For some parts of packaging, for technological reasons, it is not possible to identify the material used. In these cases it is necessary to refer to the attached file also present on the site [www.omfb.it](http://www.omfb.it) in the "[PACKAGING DISPOSAL](#)" section
