

# Piston pumps "TWIN-FLOW" series

We are pleased to inform you that the range of TWIN-FLOW bent axis piston pumps is now including the new pump model 76+76.

This new version replaces the 70+70 version and offers higher features and improved performances at reduced noise level.

**The order codes are the following:**

- **TWIN-FLOW 76+76: 604-001-17673** right rotation  
**604-001-17679** left rotation

TECHNICAL WORKING FEATURES	76+76
Displacement A (cc/rev)	75.1
Displacement B (cc/rev)	74.8
Max continuous pressure (bar)	300
Max peak pressure (bar)	350
Max speed without load (rpm)	2550
Max speed with load on A and B outputs	1500
Max speed with load on 1 output only	2100
Max continuous power (kW)	110
Max intermittent power (kW)	129

Current orders placed for 70+70 piston pumps may be automatically swapped to the new model according to production requirements.
