

## Incorporation of Company DAL BARCO SRL

We are pleased to announce that as of January 1st, 2022 the subsidiary **DAL BARCO Renato SRL** has been incorporated into the parent company **OMFB Hydraulic Components SPA**, aiming to further strengthen our presence in the tank sector and offer more and more integrated solutions to our customers.

DAL BARCO SRL, already under OMFB control for some years, is a well-known company specialising in the construction of metal tanks for different applications, working in this market for over 50 years.

The Dal Barco production site is now working as OMFB's tank production unit and keeps its location in Rovereto – Trento province - Italy.

This further effort confirms once again the desire to be a leading company also in this market's segment.

In a dedicated section of our website, you will find the updated ranges of oil, diesel and mixed tanks with related accessories.

Combining OMFB's organisational and quality model with the experience and know-how developed by DAL BARCO, will enable us to deliver our customers excellent products and second to none service.
