

Stainless steel metal straps for tanks

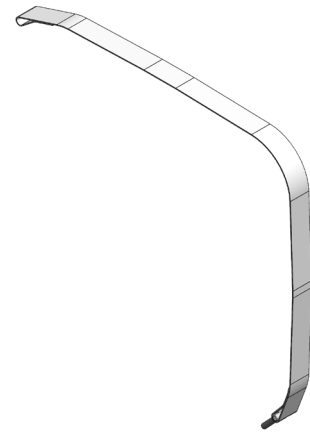

To match the new coding system we set up for tanks, the part number of strap ref. 13599030216 becomes 538200BR1X1. From a technical/practical point of view there will not be any modification from the past version.

Old version P/N:

13599030216 FSC.METAL.INOX FIS.SRB.SL

New versione P/N:

538200BR1X1 FASCE BR LAT.INOX 1360X50X2 VITE 90

This change takes place with immediate effect and we would like you to use the new part number for your future orders.

Current open orders in progress might be already processed with the new version.

Our sales/technical office is available for any further information you might require.
