

# Mounting kit upgrade for the BP series tanks (480x650)

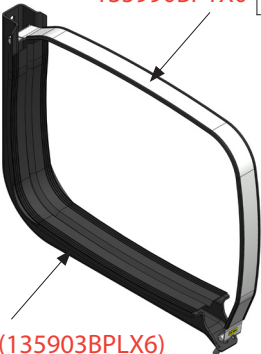

We are pleased to inform you that the BP series of tank mounting kits has been updated with the introduction of a new support with a special design. This change has been made following the need of constant improvements of the quality of our products, adapting them to the technical equipment of the new vehicle ranges.

	<p>The new universal hole pattern allowed us to integrate the holes pattern of the new frames recently introduced on the market into a single solution, without handling specific supports or drill new holes on the chassis frame.</p>  <p>Universal hole pattern</p>

The old codes are placed at the end of the series until the stocks are completely exhausted. The transition times will therefore vary depending on the model.
